Putting advancement more to PLs hands, gave them reports.
There will be Board of Reviews for Scouts who haven't advanced - more for helping rather than a "call to the principal's office"
Also included tools for Honor Patrol
Changing to new book rules at the end of the year, under new reqs Scouts need cyber chip to advance

Communication

Email sent to troop about Mr. Hoopes' 9/11 Memorial project
The Troop doesn't do snapshot things very well - more plan-oriented things are encouraged because they are confusing for us
Cokesbury Village will have a few older guys and a few younger guys to do it, but tell Mr Walsh things like this are difficult to do - emailing Ben Carrol to do it

PL

First Years

Email weekly guide - going well all working on second class, working on a fitness requirement

Fix lines at opening - starting to realize what to do

Greg's been sick recently missing a lot of stuff

With new book, first class first year is more of a goal than a reality because of more intense requirements. with this group, tough time with swimming

Big focus on first class because 70% of guys who get it stay until 18

Thunder Birds
